

MICROWAVE FILTER COMPANY, INC.

October 1, 2017

Dear Customer,

RE: RoHS per the European Community Directive **2015/863/EU Amending 2011/65/EU**

Microwave Filter products are available in compliance to **2015/863/EU RoHS** directive. Many products have always been in compliance to the RoHS directive. Others have been redesigned to meet these requirements. As a result, a few products may have different part numbers for RoHS and compliant products. Please consult the factory.

RoHS compliant product must be notated on any purchase orders to ensure supply of the proper part.

MFC labels all parts or product containers with a symbol that indicates that the product is RoHS.

If any further information is required, please contact us at 1-800-448-1666.

Sincerely,

A handwritten signature in blue ink that reads 'Carl Fahrenkrug Jr.' The signature is fluid and cursive, with a large loop at the end.

Carl Fahrenkrug Jr.
Executive Vice President
